PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on production experience building Angular applications, designing RESTful API integrations, and delivering cloud-ready solutions in Agile/Scrum environments. Proven ability to develop scalable, maintainable web applications across the full SDLC using TypeScript, .NET Core, and modern frontend frameworks. Holds a Master's in IT Management and a Full Stack Web Development Diploma with High Distinction from a Canadian institution.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, C#, HTML5, CSS3, SQL.
- **Frameworks and Libraries:** Angular 17, React, ASP.NET Core, Entity Framework Core, RxJS, Bootstrap, RESTful APIs.
- **Databases:** MongoDB, PostgreSQL, SQL Server, Entity Framework Core (ORM).
- **DevOps and Cloud:** Azure DevOps, Docker, CI/CD Pipelines, GitHub Actions, Postman, GitHub Copilot.
- **Practices:** Agile/Scrum, OOP, Code Review, Sprint Planning, Backlog Refinement, SDLC.

PROFESSIONAL EXPERIENCE

Elumina

2025

Full Stack Developer

- **Frontend Development:** Built and maintained production-grade Angular components for an online assessment platform serving students across Australia and the Asia-Pacific region, improving component reusability by 30%.
- **API Integration:** Designed and integrated RESTful API connections using RxJS Observables and async/await patterns, improving data retrieval speed and eliminating blocking UI states across assessment modules.
- **Performance Optimization:** Monitored and optimized system performance, identifying bottlenecks that reduced page load times by 40% and ensured platform stability for high volumes of concurrent users.
- **Testing and Quality:** Authored test cases and executed functional testing across 15+ platform modules, ensuring release-quality reliability prior to each production deployment.
- **Agile Delivery:** Collaborated in Agile sprint cycles — participating in sprint planning, daily stand-ups, and backlog grooming — consistently delivering features on schedule.

Capstone Project — MacEwan University

2024

Full Stack Developer and Team Lead

- **Full Stack Architecture:** Led a cross-functional team of 8 engineers to architect and deliver a full stack Task Management application using Angular, TypeScript, ASP.NET Core, and Entity Framework Core.
- **API and Database Design:** Engineered a RESTful API layer with Entity Framework Core ORM, achieving seamless front-to-back data synchronization and a 45% improvement in data retrieval performance.
- **Security Implementation:** Implemented role-based access control (RBAC) and JWT-based authentication, securing multi-level user access across all application modules.
- **DevOps and CI/CD:** Managed full project delivery in Azure DevOps — including sprint boards, milestone tracking, and CI/CD pipeline configuration — driving a 20% increase in development cycle efficiency.
- **Scrum Leadership:** Led sprint ceremonies as Scrum lead, reducing blockers and cutting end-to-end processing time by 30% across the team.

Landmark Group

2023

Frontend Developer

- **Frontend Development:** Developed and maintained Angular-based internal interfaces for hotel operations, ensuring consistent UI performance and reliability across business-critical workflows.
- **Payment Gateway Integration:** Collaborated with the Finance team on frontend payment gateway workflows and engineered custom PostgreSQL audit queries, reducing reporting errors by 15%.
- **Performance and Reliability:** Maintained and optimized frontend performance across enterprise platforms, ensuring 24/7 availability through proactive monitoring and rapid issue resolution.

- **Cross-functional Collaboration:** Coordinated with cross-departmental teams to align frontend development with operational requirements, minimizing production downtime during rollouts.

Gibraltar Technologies

2022

Frontend Developer

- **Frontend and UI Development:** Developed and configured Angular-based interfaces and business software applications across client environments, reducing setup time through standardized deployment procedures.
- **Component Development:** Built reusable UI components and maintained frontend codebases across multiple client projects, ensuring consistency and performance standards were met.
- **Process Improvement:** Implemented structured development and deployment workflows, reducing delivery time by 20% and improving release quality across client environments.
- **Technical Documentation:** Developed and maintained frontend technical documentation and system configuration guides, standardizing delivery processes and improving team consistency.

EDUCATION

MacEwan University

Edmonton, AB

Diploma, Full Stack Web Development and Professional Communication | GPA 4.0

Focus: Angular, ASP.NET Core, RESTful APIs, Agile Engineering.

University of Salford

Manchester, United Kingdom

MSc Managing Innovation and Information Technology
