PROFESSIONAL EXPERIENCE

Elumina

Front End Developer (Contract)

Mar 2025 - Sep 2025

- Engineered modular and reusable website components to ensure a scalable and consistent experience for global users.
- Optimized data retrieval and storage processes to increase system speed and minimize technical errors.
- Streamlined platform performance, achieving a 40% improvement in load times while maintaining high system stability.
- Strengthened system reliability by implementing proactive security measures, effectively safeguarding sensitive user information.

Landmark Group

IT Executive

Aug 2022 - Nov 2023

- Managed and maintained computer hardware, software, and network infrastructure, ensuring high system uptime and operational efficiency.
- Provided comprehensive technical support to staff, promptly diagnosing and resolving hardware, software, and connectivity issues.
- Documented technical procedures and payment processes, enhancing the accuracy and clarity of system maintenance logs.
- Collaborated with cross-functional teams, including finance and customer support, to streamline payment gateway operations and resolve technical blockers.

Gibraltar Technologies

Technical Support Engineer

Jun 2020 - Feb 2022

- Responded to user service requests using the ManageEngine ticketing system to ensure timely resolution.
- Installed, configured, and maintained desktop systems, hardware, and software, ensuring operational efficiency for end users.
- Managed user accounts and access permissions while providing first-level troubleshooting for system issues.
- Documented technical issues to improve the team knowledge base and maintained an accurate IT inventory.

TECHNICAL PROJECTS

MacEwan University Final Semester Project | Edmonton, AB

Lead Software Developer

Sep 2024 - Dec 2024

- Led a team of 8 through the full lifecycle of building and launching a scalable task management system.
- Implemented secure user verification and access controls to protect sensitive application data.
- Designed automated tracking and testing to ensure system reliability after release.
- Facilitated team communication and resolved technical blockers, increasing project delivery speed by 30%.
- Presented project milestones and technical solutions to faculty and peers, ensuring clarity and alignment on project goals.

EDUCATION

MacEwan University | Edmonton, AB

Post-Graduate Certificate in Full Stack Web Development(GPA: 4.0)

Dec 2024

University of Salford | Manchester, United Kingdom

Master of Science in Technology and Innovation Management

Dec 2019
